

DEPARTMENT OF ENVIRONMENTAL PROTECTION & SUSTAINABILITY

Interoffice Memo

TO: Glen Keller, Chief
Bureau of Engineering and Construction, Sewer Design Section
Department of Public Works

FROM: James A. Markle, P.E. Manager */signed/*
Department of Environmental Protection and Sustainability

DATE: October 30, 2018

SUBJECT: Sewer House Connections, 11000-11008 Philadelphia Road
Stormwater Management Variance
Bird River Watershed
EPS Project ID: M180295
Tracking Number: 06-18-2837

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the installation of sewer house connections by cut and cover. The existing cover conditions will be re-established once the connections are installed. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area as a result of this project.

Please contact Michael P. Doyle of my staff at 410-887-3768 should you have any questions.
